PROFESSIONAL SUMMARY

Detail-oriented and motivated Computer Engineering student leveraging a solid academic foundation in Object-Oriented Programming, Data Structures, and Database Management Systems to build user-centric digital applications. Demonstrates practical engineering capabilities in frontend web technologies, including HTML5, CSS3, and JavaScript fundamentals, showcased through personal projects like responsive web interfaces and minimalist analytics dashboards. Passionate about writing clean, standard-compliant code, implementing cross-device responsive design, and rapidly adapting to modern software engineering workflows within collaborative technical teams.

EDUCATION

Bachelor of Engineering (B.E.) in Computer Engineering

Shree Swami Atmanand Saraswati Institute of Technology / GTU, Surat

Expected Graduation: 2027 | CGPA: 7.78 / 10.0

Relevant Coursework: OOP, DBMS, Web Technologies, Data Structures & Algorithms

TECHNICAL SKILLS

Languages

JavaScript (Fundamentals), Python

Frontend Tech

HTML5, CSS3, Responsive Web Design, User Interface (UI) Layouts

Databases & Tools

Database Management Systems (DBMS), Git, Visual Studio Code (VS Code)

Core Concepts

Object-Oriented Programming (OOP), Data Structures & Algorithms (DSA)

PROJECTS

Pipaliya Plates – Food Delivery Web Interface

Technologies Used: HTML5, CSS3, Web Technologies, Responsive Design

- Developed a responsive food delivery website using HTML5, CSS3, and JavaScript.
- Created multiple webpages including Home, Menu, About, and Contact.
- Designed a user-friendly interface with proper navigation and responsive layouts.
- Ensured compatibility across different devices and screen sizes.

NutriTrack Pro+ – Minimalist Health Dashboard

Technologies Used: HTML5, CSS3, UI/UX Layout Principles

- Developed a health dashboard to monitor calorie and water intake.
- Designed a clean and responsive interface using HTML5 and CSS3.
- Applied UI/UX principles such as proper spacing, typography, and visual hierarchy.
- Built an easy-to-use interface with a minimalist design for better usability and readability.

ACHIEVEMENTS & ACTIVITIES

- Academic Performance:** Maintained a consistent 7.78 cumulative GPA track in core engineering fields while executing practical software layouts.
- Technical Collaboration:** Guided peer troubleshooting sessions during university engineering labs to resolve frontend layout compilation errors.

LANGUAGES & INTERESTS

Languages: Gujarati (Native), English (Professional), Hindi (Functional)

Interests: UI/UX Architecture, Fitness Analytics, Open-Source
